Mission Women on Wings

Our mission is to take families in rural India out of poverty through economic development of women. Empowering rural women is crucial for ending hunger and poverty and contributes to realizing a more equal position. By giving women opportunities, they can give their children a better future. It is the way to break the cycle of poverty.

Our goal

1  **MILLION** *Women on Wings aims to co-create one million jobs for women in rural India*

That's how we do it

Our 54 volunteer experts provide their 15+ years of business knowledge and mentoring to 48 social enterprises that largely employ women. Together with the enterprises we scale and accelerate their business and thus create more sustainable jobs for women. We also work with state governments on strengthening their women entrepreneurship programs.

“Women on Wings is the best thing which has happened to me in my entrepreneurial journey. Their experts bring real insights on various issues like branding, waste management, sales and marketing or our supply chain. A real booster for our organization. The experts share how we can improve things and make us look at our business in another way. That helps us reach another level and ultimately will result in engaging more artisans.”
